Must be ordered by November 15, 2024

FALL CLEANUPS

What is fall cleanup?

Fall cleanup consists of cleaning all debris and leaving your property as clean as possible. Any grass plants & perennial flowers still in need of cutting will be done at this time. We will also perform one final mowing.

When leaves sit on your lawn all winter, they can do more harm than you think. Leaves trap moisture, and too much of it can damage your grass.

This leads to:

- Mold and mildew growth
- Lawn diseases that spread quickly
- Grass rotting from too much moisture

Raking up leaves and clearing debris helps your lawn stay dry and healthy. A quick cleanup can save you from big problems later.

What's the difference between:
Fall Cleanup (One time)
or
Fall Cleanup (Seasonal)?

One-Time Fall Cleanup – If you are receiving this service you will get (1) visit between November 25th and December 15th. During this only visit, we will clean all debris and leave the property as clean as possible. All grass plants and perennial flowers will be pruned at this time as well as one final mowing.
***If an additional visit is requested we will need to charge an additional fee.

Seasonal Fall Cleanup – If you are receiving this service you will get (1) visit between November 11th and November 30th. During this first visit we will clean the yard very well, cut back the perennial flowers, grass plants and mow the lawn one final time. We will then return one more time between November 25th and December 15th. During this final visit we will clean all debris and leave the property as clean as possible. Any grass plants and perennial flowers still in need of cutting will also be done at this time. The anticipated time between visits will be 3 weeks.

***Some properties will receive a 3rd visit. This will be at our discretion. Typical reasons we return for a 3rd visit is that the property has trees that shed extra late, or our second visit occurred when most of the leaves have not fallen.

ACORNS

As we let you know in our Newsletter last month, acorn cleanup this year has been a far greater task than in years past, in some cases cleaning up acorns has proved to be a time-consuming effort.

We will continue to remove them throughout the rest of October and early November during our maintenance visits.

In the cases where it takes us longer (more than 10-15 extra minutes) we will need to charge a small fee to cover our labor expenses. As of today, it has taken us an average of 1-2 hours to cleanup the acorns on any given property. With even some cases where it has taken 3-4 hours to remove them.

Perennials & Grass Plants Trimming+Pruning

Why do we Trim + Prune Perennials & Grass Plants?

We offer this service to prevent winter damage!

Dead, Diseased, & Damaged Branches: these branches pose a risk to the plant as they can harbor disease. Your shrubs won't be damaged when you prune out the dead wood in the fall, and it's necessary to prune out the disease now, so it doesn't spread over the winter.

Perennials left in place slowly break down over the winter.

If you are one of our maintenance clients and/or scheduled for Fall Cleanup - You are already scheduled for this service.

SPRINKLER WINTERIZATIONS

HAVE BEEN COMPLETED

Our last day of Sprinkler Winterization was November 1st 2024
Your system is all set and will be ready to be restarted in the Spring

GUTTER CLEANING

STAGE 1: The week of November 4th through November 8th, we will clean the gutters fully of all debris ahead of any freezing (which would make it very difficult to remove all debris).

STAGE 2: The week of November 25th through November 29th we will clean the gutters a second & final time to remove all the new and remaining debris.

DON'T FORGET

**WEEKLY MAINTENANCE IS SCHEDULED TO END
FRIDAY, NOVEMBER 8TH**

HAPPY **THANKSGIVING**

With Thanksgiving quickly approaching the Lawnscares team would like to take some time to thank our dedicated employees, clients & vendors.

We are extremely grateful for our hardworking & professional crews!

They put so much care into each one of their jobs & it truly shows.

And of course, we wouldn't be where we are today without our wonderful clients, who welcome us to work with them & their properties.

Have a lovely holiday!
